NAME AND ADDRESS OF THE INSTITUTION:

RAJA PEARY MOHAN COLLEGE, UTTARPARA

1, Acharya Dhruba Pal Road,

P.O: Uttarpara, Dist: Hooghly, Pin: 712 258

HISTORY:

Raja Peary Mohan College, Uttarpara, was founded on 20th June 1887, by Late **Joykrishna Mukherjee**, one of the pioneers in educational and cultural movements and social reforms in 19th century Bengal. At the time of foundation, the College was named Uttarpara College. Eight years later, Late Raja Peary Mohan Mukherjee, son and successor of Joykrishna Mukherjee maintained the College as a non-government Institution. **Raja Peary Mohan Mukherjee was the first M.A. from Calcutta University**. In 1953, the College was renamed as **Raja Peary Mohan College**, Uttarpara in gratitude to Raja Peary Mohan Mukherjee, the patron and benefactor of the College, who served as the crisis-manager when the College had run into a very rough weather.

AMBIENCE:

Since the date of its foundation, the College slowly and steadily transcended its local boundary and grew into a very large educational institution catering to the academic needs of boys and girls coming from its vast hinterland. The College draws a large no. of students from the Districts of Hooghly, Howrah and North 24-Parganas, including North Kolkata. It has now developed itself as a prominent center of learning and as one of the biggest Colleges in West Bengal under Calcutta University. In 1956, from Intermediate standard, the College was upgraded to a Degree College with affiliation in degrees of Arts and Science. Two years later, it got its affiliation in Commerce faculty, at the Pass level and in 1970 at the Honours level. Till 1990, the College had been offering Honours Courses in Bengali, Political Science, Philosophy, Physics, Chemistry, Mathematics, Economics and Zoology. In 1990, the College

got permission to provide Honours course in Physiology, and in 1997 in English and in Botany. Raja Peary Mohan College Computer Centre was inaugurated on 8th July 1994 by the Hon'ble State Education Minister, Prof. Satyasadhan Chakraborty.

LOCATION:

The College has a beautiful overview of the **Hooghly River**, the **Dakshineswar Kali Temple** and of the **Vivekananda Setu**, more commonly known as **Bally Bridge**. It is located on a point near the G.T. Road, and is within easy reach of Bally Ghat Railway Station and Bally station on Chord line as well as Howrah-Bandel and Tarakeswar Main line. The College is well connected by both railway and bus routes with all parts of the districts of Kolkata, Hooghly, Howrah and North 24 Parganas. Thus the location of the College is ideally suited for catering to the educational needs of the students from distant urban and rural areas.

In fact it is the only organisation of its kind in an undergraduate college in West Bengal. The joint effort has produced the following results:**

The A.P.C Roy Eco Club have completed one year on September 2005. Accordingly the 1st conference was held on 13.09.05 at the Centenary Hall in the college premises. A seminar lecture was arranged to mark the occasion. Dr. Bhabani Shankar Joarder, Secretary, *Pachim Banga Vigyan Mancha* Hooghly District committee delivered a lecture on contemporary environmental issues.

- **Nutrition awareness camp in the local colony (Boliobagan) in December 2006**

- Exhibition and awareness camp organized **in collaboration with *Pachim Banga Vigyan Mancha* Hooghly District committee on “Scientific and Environmental awareness”** in December 2007.

b) In 2006 the inspiring and active effort of Dr Srutinath Praharaj Head of the Department of Raja Peary Mohan College led to the formation of NGO “ALO” especially for the needy and talented students. **The teachers of this college willingly became members of this organization and are taking initiative to collected donation from different source to help some talented people to realize their aim to some extent. He is now in his final year and we hope that he will complete his studies successfully in a very short time.**

COLLABORATION WITH INTERNATIONAL LEVEL ACADEMIC INSTITUTIONS

- a) A project entitled "A Study on the Variability of Total Electron Content near the Crest of the Equatorial Anomaly in the Indian zone" has been sanctioned by the INDIAN SPACE RESEARCH ORGANISATION (ISRO), Department of Space, Government of India, under RESPOND Program for financial assistance. Total approved grant for the Project is Rs.6.96 lakhs for three years. Principal Investigator of the said Project is Dr. Shyamal Kumar Chakraborty, Department of Physics.**

The implementation date for the Project is 12th January, 2006. One Junior Research Fellow named Rajkumar Hajra, M.Sc. in Physics, has been recruited under this project. The Project is mainly based on variability study of Ionospheric Total Electron Content (TEC) which is one of the important parameters for the Space Weather problem. TEC has been measured by Faraday rotation technique using trans-ionospheric signal (136.11 MHz) from the geostationary satellite ETS II. The data were recorded at the Ionospheric Field Station, Haringhata (22.48° N, 88.5° E, dip: 32° N) of the University of Calcutta. Field station, being situated virtually below the northern crest of the Equatorial anomaly, presents an excellent platform for studying Equatorial Phenomena. A long term (1979-90) TEC data base along with solar flux (810.7), electrojet/ magnetic and wind data will be utilized for the present analysis. Unique feature of the data base is that it includes both the increasing phase (1986-90) as well as decreasing phase (1979-85) of solar activity. Extensive study will be made to find out dependence of TEC, both qualitatively and quantitatively, on various geophysical parameters. The study

will be useful in predicting the ionospheric group delay of trans-ionospheric signal as used in GPS and other systems.
